Stop by to learn more about the updated plans and to find out how your ideas and insights influenced the design.

This enhancements project focuses on bicycle access and pedestrian safety along the Washington Blvd. corridor between Sycamore Street (at East Falls Church) and Westover. The proposed design concept was shared at a community Open House in March and, following a public comment period, County staff are working to update the plans. Join us on the 19th for an explanation of the updated plans and to find out what is different from the proposal.
