

2013 Youth Risk Behavior Survey

GRADE 6 QUESTIONNAIRE

This survey is about health behavior. It has been developed so you can tell us what you do that may affect your health. The information you give will be used to develop better health education for young people like yourself.

Please **DO NOT write your name** on this survey or on the answer sheet. The answers you give will be kept private. No one will be able to connect your answers to your name. Answer the questions based on what you really do. If you like, you may use an extra piece of paper to cover your answers.

Completing the survey is voluntary. Whether or not you answer the questions will not affect your grade in this class. If you are not comfortable answering a question, just leave it blank.

The questions that ask about your background will be used only to describe the types of students completing this survey. The information will not be used to find out your name. **No names will ever be reported.**

Make sure to read every question. Then, use the **answer sheet** to mark your response. Make sure that the question numbers on the survey form *match* the ones on your answer sheet. Fill in the ovals *completely*. If you need help understanding a question, raise your hand and the teacher or survey administrator will assist you.

When you finish, please remain seated. At the end of class, the survey administrator or teacher will place the answer sheets in an envelope and seal it.

Directions

- Use a #2 pencil to mark answers on the **separate answer sheet**.
- Make solid marks and completely fill in the bubble *on the answer sheet* that matches your response.
- Erase completely any marks you wish to change and any stray marks.
- If you need help understanding a word or a question, raise your hand.
