

At the February 28, 2018, meeting of JFAC, a community member asked, "What are "white fleet" vehicles?"

The Arlington Public Schools (APS) Assistant Superintendent for Facilities and Operations was later forwarded this question. His response is:

*"White fleet" vehicles are not busses, the APS white fleet comprises:*

- *SUVs such as Ford Escapes or Ford Explorers*
- *Vans in various sizes and configurations*
- *Minivans*
- *Pick-up trucks*
- *Dump trucks*
- *Various other miscellaneous vehicles*

*The white fleet vehicles are used by Maintenance, Transportation, Plant Operations, Design & Construction, Information Services, Food Services and some other APS staff. The number currently parked at the Trades Center is between 60 and 70. More are parked at other locations.*
